Our approach

All our people are encouraged and empowered to use their expertise to find a way around problems. We have a healthy appetite for risk, and a willingness to work flexibly in partnership with brokers and clients, enabling us to find innovative solutions. We don't believe that one size fits all or that we should follow what other insurers do, which means we are always willing to take a view on specialist risks.

We stand by our claims

At QBE we pride ourselves on our professional, efficient and sympathetic approach to claims. So not only do we take great satisfaction from our highly rated* claims service, we also place great emphasis on risk management, working with clients to improve their systems and processes.

Effective risk management is an essential feature of all successful organisations and is one of our key underwriting considerations. Our objective is to work hand in hand with all stakeholders to ensure we take every opportunity to contain and control risk. This helps us to reduce the frequency and severity of our clients' loss experience.

History of QBE

In 1886, the North Queensland Insurance Company was formed by two insurance agents in Sydney, Australia. The company was expanded by establishing agencies throughout Asia and Australasia. There was even an agency presence in London prior to the branch office opening on Fenchurch Street in 1904.

North Queensland Insurance Company continued to grow and acquired Equitable Probate and General Insurance in 1959, before merging with the Bankers and Traders Insurance Company in 1971 to finally arrive at the name – QBE – in 1973 when QBE Insurance Group Limited was listed on the Australian Securities Exchange.
